The Houston Electrical League

16-Apr-25

Stafford Centre

10505 Cash Rd | Stafford, Texas

No Cost to Attendees

Breakfast, Lunch, Parking and Exhibitor Booths are all
Complimentary

SCHEDULE-AT-A-GLANCE

	Rm 101 (25)	Rm 102 (25)	Rm 103 (50)	Rm 104 (25)	Rm 105 (25)	Ballroom A (50)	Ballroom B (100)
7:00 AM	Complimentary Continental Breakfast and Exhibitor Booths Open						
8:00 AM	 legrand POWER.BUS.WAY Considerations for designing optimal power distribution feeder systems for various project installation conditions.	 SATEC Advanced Metering for Energy Code Compliance, Energy Management and Power Quality Monitoring	 ea technology Avoid MV/HV Failure with Permanent Partial Discharge Monitoring	 Danfoss VFD Principles of Operation	 Post Glover "The Resistor Specialists" Resistance Grounding According to IEEE and NEC. What You Need to Know.	Life Is On by Schneider Electric Air Insulated Switchgear versus Gas Insulated Switchgear in 5-38KV Circuit Breaker Applications	 EATON Powering Business Worldwide The Basics of Continuous Thermal Monitoring with Updates on Related Standards
10:00 AM	 power temp systems Designing Emergency Systems for New 70B & 70E Codes	 TCI Cleaning Up Your Power System How Harmonics And Distortion Are Affecting Your Facility	 ABB Gas Insulated Switchgear (GIS): value, design & application	 EATON BUSSMANN SERIES SCCR - UL 508A SB Part 1	 EXPANSE ELECTRICAL CI Best Practices for Upgrading Aging and Obsolete Automation Systems	Life Is On by Schneider Electric Creating openness in a Vendor Locked Automation Industry	 FIVE STAR ELECTRIC MIRUS Spec Notes for VFD Secondary Circuit Design to Prevent Harmonic Distortion, Resonance/Reflective Wave & Common Mode Noise Damage to Motors, Cables and Mech. Load Equip.
11:30 AM	Complimentary Luncheon - Business Ethics Presentation - Exhibitor Booths Remain Open All Day. Dr. Lee Allison, Assoc. Professor in the College of Engineering, Dept. of Engineering, Dept. of Engineering Technology & Industrial Distribution will present on "Power & Principles: Engineering Ethics in the AI Era"						
1:00 PM	 legrand POWER.BUS.WAY Considerations for designing optimal power distribution feeder systems for various project installation conditions.	 SATEC Advanced Metering for Energy Code Compliance, Energy Management and Power Quality Monitoring	 ea technology Avoid MV/HV Failure with Permanent Partial Discharge Monitoring	 Danfoss VFD Principles of Operation	 Post Glover "The Resistor Specialists" Resistance Grounding According to IEEE and NEC. What You Need to Know.	Life Is On by Schneider Electric Air Insulated Switchgear versus Gas Insulated Switchgear in 5-38KV Circuit Breaker Applications	 EATON Powering Business Worldwide The Basics of Continuous Thermal Monitoring with Updates on Related Standards
3:00 PM	 power temp systems Designing Emergency Systems for New 70B & 70E Codes	 TCI Cleaning Up Your Power System How Harmonics And Distortion Are Affecting Your Facility	 ABB Gas Insulated Switchgear (GIS): value, design & application	 EATON BUSSMANN SERIES SCCR - UL 508A SB Part 1	 EXPANSE ELECTRICAL CI Best Practices for Upgrading Aging and Obsolete Automation Systems	Life Is On by Schneider Electric Creating openness in a Vendor Locked Automation Industry	 FIVE STAR ELECTRIC MIRUS Spec Notes for VFD Secondary Circuit Design to Prevent Harmonic Distortion, Resonance/Reflective Wave & Common Mode Noise Damage to Motors, Cables and Mech. Load Equip.
